a good value at 17c; for sale Monday,
12 1-2c yard.

Agents for McCall Patterns. The July Fashion Sheets Are Ready.

AN OFFER OF TIMBER RIGHTS TO RIGHT MAN

All He Needs is a Little Money
and a Lot of
Hustle.

(Special to The Times-Dispatch.)
ASHEVILLE, N. C., June 9.—Colonel
Thomas Turner, proprietor of Emerald
Inn, has announced that he will give the
timber rights on his property free to
some young man who will go to his place
and build and operate a hickory turning
mill. The only rights to be reserved by
him will be the contract for hauling the
timber to the mill from the foresta and
then to the railroad.
The Emerald estate consists of about
1,000 acres of heavily timbered property,
bearing chestnut oak, hickory, locust, and
many other woods which are valuable in
the manufacture of furniture and casings.
The property is divided by the Rocky
Broad River, which has a fall in several
places strong enough to give a force of
1,600 horse power. This feature will also
be given free.
The only requirements are that who-
ever accepts this offer must be a re-

sponsible party, must live on the place
and devote all his attention to the busi-
ness.

The property is twenty-one miles from
Asheville, where a ready market can be
found for the output of the products
of the plant. The price of hauling from
Emerald here would be very low, in
comparison with what it costs to get lum-
ber from other points in the mountains.
Colonel Turner is greatly interested in
the industrial development of Western
North Carolina and he is pleased with
the strides being made in Asheville, Hen-
dersonville and the other towns of this
section. He believes that the erection
of manufacturing should be encouraged,
and it was for this reason that he has
made the offer to give the timber free.
He believes that if axe handles, locust
pin and furniture factories are started
in this section of the State, where the
very best timber is easily at hand, many
of the larger concerns of the United
States will erect large factories and
plants here.

Colonel Turner was formerly in the
wholesale lumber business in New York,
and he is confident that the timber on
his property is of a class that will make
high-grade goods. He retired from ac-
tive business fifteen years ago and does
not care to be actively engaged again;
therefore he wants some one to take hold
of what he believes one of the greatest
enterprises in this State.

MUCH VEXED MATTER SOON TO BE SETTLED

Norfolk and Western to Make
Depot Changes at Bedford
City.

(Special to The Times-Dispatch.)
BEDFORD CITY, VA., June 9.—There
seems now a certainty that the vexed
problem that for a long time has ex-
ercised many of this community, viz.,
the removal of the passenger station, will
be satisfactorily adjusted.
Negotiations between the Norfolk and
Western Railway and the corporation,
as represented by its town council, have
been in progress for some time past, and
the interest in the community has been
considerable. At a called meeting of the
council last night, the negotiations re-
sumed this shape, in response of the re-
quest of the railroad for right of way
on Bedford Avenue and the proposition
to locate both the passenger and freight
depots on that street on opposite sides
of the tracks. This proposal was accept-
ed on condition that when the bridge
that spans the track on Bridge Street,
connecting the residential and business

portions of the town, be increased to
the full width of the street, the arch to
be in proportion to the width of the four
lines of track beneath; that an overhead
foot-bridge be built opposite Court Street,
and an underground crossing at Fourth
Street, and also a good crossing at the
Berry Shuling Tobacco factory, near
which many manufacturing plants are
located. It is required that the railroad
grade and macadamize the street leading
from the market-house to the new freight
depot. There are other minor require-
ments for grading, etc., that are asked
to facilitate hauling of freight to the
new depot, all of which seem reasonable
and necessary.
The locating of the depots on Bedford
Avenue will necessitate the making a
new street by the railroad, land for
which they have purchased from Ran-
dolph-Macon Academy and private in-
dividuals. The town will macadamize this
thoroughfare from the bridge to the new
passenger station, permanently improving
a street that is often impassable in win-
ter.

The council recognizes that manufac-
turers that have established their plants
near the present freight depot will be
greatly inconvenienced and damaged, and
therefore, neither sanctions or opposes
the removal of this depot, leaving this
feature to be adjusted by the parties con-
cerned.
These are virtually the conditions sub-
mitted by the council to Major S. Griffin,

the attorney for the Norfolk and West-
ern road, and the decision now rests with
their officials.

RAILROAD CONTRACT.

Wilson County and Town Provide
for an Artesian Well.

(Special to The Times-Dispatch.)
WILSON, N. C., June 9.—The Raleigh
and Pamlico Sound Railroad, which is
building the road from Raleigh to the
coast via this city, has let the contract
for grading of about thirty miles east
and west of Wilson to Good, Hart & Co.
These contractors will put five hundred
Italians on the work.
About two hundred of these arrived
this week. The road will be completed
to Wilson in four months. The site of
the station has been cleared of several
dwellings preparatory to the erection of
the station.
The old Hotel Imperial, formerly con-
ducted by Mrs. Focht, has been leased
by Pike Bros., and will reopen about
June 20th, under name of Pike Hotel.
Extensive improvements will be made in
the building.
The town and county jointly are hav-
ing an artesian well sunk on the court-
house lot. Good water is expected to be
struck, and a public drinking fountain
will be erected there.

ONE DOLLAR A POUND FOR FISH SCALES

Selling Fiddlers a New Source of
Revenue—Petrified
Pumpkin.

(Special to The Times-Dispatch.)
HEATHSVILLE, VA., June 9.—During
the past few years certain manufacturers
in the North have sent circulars to
fishermen in this section, offering one
dollar per pound for fish scales. They
are used in the manufacture of buttons.
As one pound will fill a half-peck mea-
sure, no one, so far, has deemed the
business profitable enough to embark in it.
Harrison Crockett caught fifteen fidd-
lers recently, and received half a cent
apiece. These are the first fiddlers he
ever heard of being marketed.
Captain George Mercer picked up a
petrified pumpkin on Cherry Point shore
the other day.
The Sunday-school convention of the
Baptist churches of the Northern Neck,
which convened Saturday and Sunday,
May 13 and 14 at Hornum Church, West-
moreland county, was one of unusual in-
terest, and in spite of the threatening

weather, was well attended by both dele-
gates and visitors. Mr. A. S. Rice was
re-elected moderator, and Mr. R. Fuller
Huntton, was also re-elected secretary and
treasurer.
Mr. T. Belfield, of Millenbeck, had the
misfortune to fall and break his collar-
bone in two places, resulting in a
Mr. J. E. Nolms is spending some time
in Norfolk.
Mr. William Tignor, of Washington, has
moved his family back to their old home
here.

Onancock, Notes.

ANANCOCK, VA., June 8.—Miss Stella
Seatherly Crickett, of Anancock, and
Mr. J. Frank Gilman, of Richmond, were
quietly married at the home of the
bride's parents, Captain and Mrs. Ben-
jamin F. Crockett, Wednesday afternoon,
Rev. W. C. Vaden, pastor of the Metho-
dist Church, South, performed the cere-
mony. There were no attendants. Among
those present were Miss Cammie Rides
and Miss Gilman, of Richmond.
Miss Crockett was one of the hand-
somest and most popular young ladies
of the Virginia Eastern Shore. Mr. Gil-
man represents a prominent tobacco firm
and has a host of friends in Virginia
and North Carolina.
Mr. and Mrs. Gilman immediately took
the Norfolk Express for Old Point, where
they will embark on a sea-voyage to
Boston and other cities. They will re-
turn to Richmond after July 1.
